

Thanks for downloading my icons!

I designed these as Perspective toolbar buttons for me to use in the GTD application OmniFocus. But as you can see, they are generalized enough to use in any variety of places. Have fun!

Tell your friends about these icons and encourage them to download at the BSB Blog where we learn about environmental and social justice issues. It's a great place to explore the less publicized, but very important, side of the modern environmental movement.

Thanks again!
